

Illinois Department of Transportation Highway Construction Careers Training Program

The Illinois Department of Transportation, through the Illinois Community College Board (ICCB), has established a Highway Construction Careers Training Program through the following community colleges.

Each community college will hold 8-week sessions (2-3 sessions per academic year) in which minorities, women and disadvantaged individuals will receive intensive training in highway construction-related skills, e.g., math for the trades, job readiness, technical skills coursework (*carpentry, concrete flatwork, blueprint reading, site plans, site work, tools use, etc.*) and OSHA 10 certification.

Participating Community Colleges

District 1	City Colleges (Wright and Kennedy King)
District 2	Rock Valley College
District 3	Kankakee Community College
District 4	Illinois Central College
District 5	Parkland College
District 6	Lincoln Land Community College
District 7	Lake Land College
District 9	John A. Logan College

Program Goal

To increase the total number of historically underutilized individuals working on Illinois Department of Transportation highway construction projects.

Job Placement Opportunities

Each college will assist trainees to become placed into Illinois' highway construction trade unions, apprenticeship programs and/or with IDOT highway construction contractors.
